Glove Striker Latch	266

Original Style Keys--Smaller hexagonal and pear shaped keys.

Later Style Keys--Larger square and round keys. '69 and later had later style keys.

Later Style Keys may be installed in earlier cars.

COMPLETE LOCK SET

All locks are identical to original locks installed at the factory. '67-8 cars had locks using the smaller hexagonal and pear shape keys. The '69 and newer cars had the larger square and round keys. Late key locks may be installed in earlier cars. Locks install, as did original with clip on door and trunk locks. Ignition lock simply pushes into place. Glove box lock on '67-8 cars is secured with a small screw from the back-side of glove box door. '69 and up cars, the latch assembly is secured with an internal octagon nut and lock pushed into place.
